Services & Engagement Models

Six engagement types — pick what fits, or mix them.

Service	Price (USD)	Timeline	What You Get
Power BI Dashboard Build	\$800 – \$2,800	3 days – 2 weeks	Custom dashboards with DAX, drill-through, slicers, RLS. Perfect for executive reporting.
SQL & ETL Automation	\$1,000 – \$5,000	1 – 3 weeks	Automated data pipelines, query optimisation, reporting workflows.
Monthly Retainer ★ Most Popular	\$1,200 – \$1,700 / mo	20 hrs / month	Ongoing BI support — dashboard updates, new reports, quick fixes, training.
Power BI Training (1:1 or Team)	\$80 – \$120 / hr	Flexible	DAX, data modelling, dashboard design, best practices. 16-hr full course also available.
Data Quality Audit	\$600 – \$1,500	3 – 7 days	Deep-dive audit of pipelines + validation framework recommendations.
Analytics Consulting	\$80 – \$120 / hr	Hourly	Strategic advisory on BI architecture, tool selection, team upskilling.

Payment terms: 50% upfront, 50% on delivery. International transfers via Wise, Payoneer or SEPA. Local (India) via UPI / NEFT. Retainer clients billed monthly.

How I Work — 5 Steps

Every engagement follows the same clean process.

1. Free Discovery Call (20 min)

You describe the challenge — Excel mess, slow reporting, dashboard needs. I ask targeted questions to scope the work. No pitch, no pressure.

2. Written Scope + Fixed-Price Quote (24 hrs)

You get a one-page document: deliverables, timeline, cost, tools. Approve or negotiate.

3. Kick-off & Data Access

50% deposit paid. Data access set up on YOUR cloud (SharePoint, Drive, S3). Mutual NDA signed if required.

4. Build in Sprints with Demos

I build iteratively. You see progress every 2–3 days via short Loom demos. Feedback goes straight back into the build — no long silences.

5. Handoff + 14-Day Warranty

Final delivery includes documentation, walkthrough video, and 14-day fix warranty. Retainer can start immediately if ongoing support is needed.

Why Direct Engagement (Not Platforms)

- **No 15–20% platform fees** — savings pass to you as better rates or more scope.
- **Direct communication** — WhatsApp / email / call, no ticket queues.
- **Long-term partnership** — you own the code, docs and dashboards.
- **Faster turnaround** — no proposal bidding wars, straight to work.
- **Custom pricing** — fixed-price, hourly, or retainer — your call.

Track Record

Acuity Knowledge Partners Data Analyst · Jun 2022 – Jul 2025	Market Research & Employer Branding reports for 200+ enterprise clients. Automated 96+ reports/week across 15 sources (248 metrics), 96.2% success rate. 45% manual reduction, 99.5% accuracy.
ShowTime Consulting Data Analyst · Sep 2021 – Jun 2022	Political campaign analytics — election data processing, gram-panchayat-wise voter analysis, Power BI dashboards for 15+ stakeholders. Sentiment models (Logistic Regression, MLP, Decision Trees) — 93% influencer detection accuracy.
Innodatatics.ai Data Science Intern · Mar 2021 – Sep 2021	Food Recommender (ALS + PySpark + Streamlit — 28% engagement lift). OCR (PyTorch + LaTeX). Face Recognition (OpenCV — 98% accuracy).
Independent Consultant Aug 2025 – Present	European & global clients via direct engagement + Freelancer.com. Latest engagement: Power BI enhancement + training for SaaS Supply Chain Manager (sprint tracking, drill-through pages, conditional formatting).

Stack & Tools

Power BI · DAX · Power Query · Tableau · Looker Studio · Alteryx · SQL Server · MySQL · Snowflake · Python · Pandas · NumPy · PySpark · Streamlit · Flask · Excel (Power Pivot, Power Query) · Git · Azure basics

Ready to Start?

The fastest way to know if we're a fit is a **free 20-min discovery call**. You describe your data challenge, I give an honest opinion on whether I can help, and if so — a scope and quote within 24 hours. No sales pitch, no pressure.
